**Celebrating 25 years in India**

## MESSAGE FROM **MANAGING DIRECTOR**

The brand Tupperware has made an impact on many of us from an early age. There are many stories of childhood memories and grandmothers' cupboards being filled with Tupperware products. They have been passed down generations and still have a place at the center of the dinner table decades later. Our bowls, serving dishes and more, whether in classic colours or modern bright hues, make a house feel like a home.

We've been around for 75 years globally & 25 years in India. We have truly become a loved and trusted household name. While we are known for great storage solutions, a wide variety of bottles, flasks and lunches, some of our lesser-known gems include baker-approved mixing bowls, high-quality cookware and innovations like MicroPro Grill. There's no meal that can't be made better with a Tupperware solution.

Since 1996, we have transformed over 1.5 million lives in the country. Individuals, families and communities have been empowered with a simple formula, as we believe that building and investing in people helps them grow, and the company grows together with them. As a company, our purpose is to nurture a better future. We believe we have the responsibility to help people, help communities – and help our planet.

I am excited that we are celebrating our 75 years anniversary globally & 25 years of being in existence in India. And ours is a business that will continue to serve people, communities and our planet for many anniversaries to come!

DEEPAK CHHABRA

##### Caring for your Tupperware

Tupperware products are tested to ensure that they are a safe, non-toxic, attractive and durable alternative to other home storage products. With a little care, you can keep your Tupperware looking as good as new.

The company maintains stock of selected spares, which can be purchased by the consumer.

Cleaning and storing: Wash and rinse Tupperware with liquid soap and lukewarm water. Store without seals to keep them fresh. Do not soak polycarbonate range in detergent or soap.

Hot food and beverages: Cool beverages before applying the seal. Cool hot food or liquids containing fat (cooking oil/grease, curries, soups, sauces) before placing them in the container. Tupperware containers can withstand temperatures upto 80°C.

Tight Seals: Place the seal in warm water for few minutes. Dry thoroughly, then apply to container while still warm.

Stain Removal: Use baking soda paste. It's ideal for reducing stains and stickiness. Preventing Cuts and Scratches: Avoid the use of abrasive scrubbers and washing powders.

Removing Unpleasant Odours: A piece of charcoal or moist newspaper, stuffed into the container and left sealed for 12 hours in the fridge (before washing and rinsing the product thoroughly) should get rid of unpleasant odours.
